Papers Friendly to Ireland Believe That the Irish People Would Vote to Accept the British Terms—Say That They Are Tired of Fighting—Labor Leaders Express Views

(By The Associated Press)
LONDON, Aug. 27.—The Irish negotiations now have reached the critical stage, in the British view as mirrored by the majority of the newspapers including those previously supporters of home rule and those advanced liberal newspapers, such as the Daily News and the Manchester Guardian which have gone almost as far as the Sinn Fein. They think the Sinn Fein declarations of general principles have gone far enough and that the time has come for dropping declarations of principles and getting down to the business of arranging the terms if the Sinn Fein proposes to negotiate the proposals which the government offered to set forth in detail in Premier Lloyd George's first letter. The British find it difficult to analyze DeValera's exact position from whatever light his latest notes throw upon it.

DEBS MUST AWAIT RATIFICATION OF THE PEACE TREATY

President So Decided After Daugherty Conference

(By The Associated Press)
WASHINGTON, Aug. 27.—The administration's intention to defer consideration of the question of amnesty for Eugene V. Debs, and other federal prisoners convicted under wartime laws until after ratification of the peace treaty with Germany was made known at the white house today after a conference between President Harding and Attorney General Daugherty.

Mr. Daugherty called at the white house prepared to discuss recommendations concerning a pardon for Debs, now imprisoned at Atlanta, but the president was said to have taken the position that decision of the case of the Socialist leader and similar offenders should await the conclusion of peace.

The administration's decision to defer action was understood to be indicative of a disposition to deal with the war law offenders in a generous manner as the facts of the individual cases would warrant.

Mr. Daugherty's recommendations in the case of Debs are understood to be the result of an exhaustive study of the Socialist leader's case, separately and also in its relation to other prisoners confined under the same laws.

MINE WORKERS WILL CONTINUE FIGHT—LEWIS

President of Miners Will Fight Mercenary Gunmen

(By The Associated Press)
SPRINGFIELD, Ill., Aug. 27.—Condemning conditions in the coal fields of Mingo county, West Virginia, as "un-American and intolerable" John L. Lewis, national president of the United Mine Workers of America, stated here tonight that the United Mine Workers would continue the fight against the "mercenary gunmen" in Mingo county until the last gun man had disappeared, and the last mine worker had been freed from present terrible conditions.

Mr. Lewis sent a telegram to President Harding Friday protesting against the conditions which have led to the armed insurrection in West Virginia coal fields and suggested a conference of representatives of the coal operators and miners be held at once to effect settlement of the trouble.

Mr. Lewis' statement in part follows: "In southeast West Virginia there are 45,000 unorganized mine workers. These men work in Logan, Mingo, Mcwell and Mercer counties. They live in isolated mining communities, unincorporated, and they live on land and in homes owned by the coal companies.

"The only law known in these communities is the rule of gunmen employed by the coal operators. These operators try to keep the union out of these districts, because they know that the union would prevent the long hours, the poor pay, and the miserable conditions under which the miners are forced to work.

"Charged to Overhead. "The detective company which furnishes the guards, holds a contract with the coal companies to furnish men with rifles and side arms. These companies pay this agency by contributing to a central fund on a basis of so much a ton of coal mined. The cost of maintaining this private army is charged to the cost of producing the coal, and the public pays for it.

"These gunmen control the county governments and there is no place for the miners to appeal for redress of their grievances. The most brutal methods are used. Hundreds of men have been assaulted, and scores have been murdered outright.

"This was the condition in Mingo county a year ago when the miners joined the United Mine Workers of America. In the immediate response of the companies was to discharge and lock out six thousand miners. These men with their families were driven from their homes without any process of law, and a campaign of terror was begun by the gunmen.

"These conditions are un-American and intolerable. The United Mine Workers will continue to fight in West Virginia until the last gunman shall have disappeared and the last of the bondsmen in the mines shall have been freed."

Premier Lloyd George seldom goes anywhere without making a speech. Today he and his wife attended the wedding in Barnsley of Sir William Sutherland, member of parliament, and recently one of the premier's private secretaries, to Miss Fountain, owner of coal mines, and one of the richest women in England.

After making a congratulatory speech at the wedding breakfast Mr. Lloyd George was conferred the freedom of the borough of Barnsley. In the speeches that followed he dwelt largely on the Irish question emphasizing that the Irish would be foolish to reject a scheme of self-government going beyond the ambitions of historic home rulers.

Columbia Theatre Damaged by Bomb

(By The Associated Press)
CHICAGO, Aug. 28.—A bomb explosion in the Columbia theatre shortly after midnight shook the entire business district. The theatre was empty at the time, not having been reopened for the season. Several persons were reported to have been injured by flying glass. According to the police, the explosion was due to labor trouble.

The explosion took place at 12:10 a. m. The bomb had been placed at the entrance to the stage door in an alley. The force of the blast shattered the heavy steel door and broke hundreds of surrounding windows, but the interior of the theatre was not damaged.

The Columbia theatre is a burlesque house on what is known as the Columbia Wheel. Recently it has been covered with "unfair" notices as a result, it was said, of trouble with the musicians' union. The headquarters of the Columbia Wheel is in New York and it operates a chain of theaters in a score of cities, mostly in the east.

A special detail of police was called to clear the streets and aid firemen in keeping back the crowd that gathered.

After a hurried investigation it was announced that the bomb, apparently a steel cylinder, had contained black powder. Part of the casings were found imbedded deep in the walls of surrounding buildings. The damage to the theatre was declared slight.

A guard of police was placed about the Columbia and several other theaters which have also been involved in labor disputes.

A similar explosion occurred at about the same time at the Star and Garter theater, a mile west of the loop district. Damage was slight here also.

Government Officials
Produce Memorandum of Note

(By The Associated Press)
CHICAGO, Aug. 27.—Evidence disputing claims of Z. W. Davis, Cleveland and Canton millionaire that \$300,000 of Davis' notes seized by federal agents in the investigation of Charles W. French and his "alleged swindle ring," are either 20 years old, or else forgeries, was made public tonight by Col. John V. Clinkin, assistant United States district attorney.

Davis was arrested at Canton today and released under \$25,000 bonds.

The evidence produced is a letter on the stationery of the Diamond Portland Cement company, of which Davis is president, and signed with his name. It is dated March 20, 1921, at Cleveland and addressed to E. J. French. The letter, after recommending French to Council endorsing the Securities Development company being organized by French at Kansas City, Mo., says in part:

"Other men have given Mr. French \$400,000 in personal notes and I have given him \$500,000 in my personal paper and \$500,000 in cash with which to capitalize his organization at Kansas City."

Memorandum of Notes. A written memorandum attached lists the \$500,000 notes as one of \$100,000 dated October 1, 1920, and five for \$100,000 each dated November 18, 1920. The list corresponds with the six notes surrendered at Milwaukee Wednesday by Alva Harshman, French's private secretary and treasurer of the Pacific Trust company of Missouri, parent organization of Securities Development and some twenty other companies.

The Davis letter was seized at Cleveland by John W. Sawken, agent of the department of justice who brought it and \$10,000,000 in Ideal Rubber and Tire company of Cleveland to Chicago today.

The notes were turned over to Sawken at Cleveland yesterday by R. D. Swan, a broker and brother-in-law of Charles Hawkins arrested here yesterday.

Sawken previously took \$5,050,000 in notes and securities found in a Cleveland safety deposit box rented by Elmer Gerber, Charles K. Strobel, Marion, Ohio, real estate man and one of French's Ohio agents, was in conference with Colonel Clinkin late today following his release on bond and it was reported that he had made a complete statement covering his relations with other members of the French crowd.

Strobel told me, Colonel Clinkin said, "that French repeatedly told him that he was a confidence man, and you must have confidence in me."

MADISON, WEST VIRGINIA, MAN SHOT BY MINERS

Receives Wound in Hand as He Drives Along Road

MADISON, W. Va., Aug. 27.—Paul Curley, son of a wholesale grocer here, was shot last night at Danville, near here, as he and friends were driving along a road lined with men on the Marmet-Mingo march. According to reports to Sheriff Hill, Carey did not get out of the automobile fast enough to suit three or four men who held it up. He was taken to a hospital at Danville, where physicians said it might be necessary to amputate his hand.

One of the miners sitting by the roadside, received a part of the charge of shot in his face and was taken with Curley to the hospital. His companions, the sheriff said, expressed the greatest indignation on the attack on Curley and made a diligent search for the attackers but were unable to find them in the crowd.

WILL ASK TO HAVE TRUCE CONTINUED

Atlantic City, N. J., Aug. 27.—The executive council of the American Federation of Labor it was learned tonight has decided to send to Premier Lloyd George a special communication urging that the Irish truce be continued until after the forthcoming disarmament conference at Washington, whatever may be the outcome of the present Irish peace negotiations.

MAKE BIG HAUL IN WHISKEY

CHICAGO, Aug. 27.—Two thousand, four hundred quarts of contraband whiskey were seized from a freight car today by prohibition enforcement agents. The whiskey was shipped from New York and was invoiced as automobile tires. James Marner, to whom the liquor was said to have been shipped was held under bond of \$5,000. Two other men were held as witnesses.

SAYS CONGRESS IN RANKS OF UNEMPLOYED

WASHINGTON, Aug. 27.—Congress by taking its recess says Chairman White of the Democratic National Committee in a formal statement, has "voluntarily joined the ranks of the 5,735,000 unemployed."

INDUSTRIES WILL BE INVESTIGATED BY LABOR LEADERS

Executive Council of the American Federation of Labor Will Go Into the Subject Thoroughly—Allege That Wage Earners Are Met With Hostility by the Government

(By The Associated Press)
ATLANTIC CITY, N. J., Aug. 27.—In order that corporate industries conducted under corporate grants shall be operated for the common good and "not merely for the profit of a class of men," the executive council of the American Federation of Labor tonight announced that it proposes to investigate this entire subject, that the "people may be fully and accurately appraised of the real situation of affairs."

Rights, privileges and opportunities equal to those granted the corporate interests are demanded by the wage earners, said the council, declaring that an inquiry will also be made with a view of devising a comprehensive plan for the correction of the "grave dangers and great evils that have fastened themselves like barnacles upon our people."

Deploping the discrimination against the workers in favor of organized industrial corporate interests, the council declared that it "will give attention to the revision of plans by which the group rights of wage earners may be fully recognized and adequately safeguarded and so that corporate interests may no longer use their organized power to deny a like right of organization and collective power to the wage earners."

The council declared that the conspiracy and anti-combination laws were being misused against the workers in behalf of the corporate interests and referred especially to the Kansas industrial court law as "only another attempt to deny the wage earners the right of organization and of collective decision to protect themselves against the encroachments of corporate wealth."

"The council," it was added, "proposes that a careful review and analysis be made of all laws and legal doctrines of this kind and if no adequate remedy can be devised to prevent the grievances and abuses now prevalent, then efforts be made that all anti-combination laws and conspiracy doctrines which have been repeatedly used to prevent the workers exercising their collective rights and privileges, shall be wiped off our statute books."

The council also declared that the judiciary department of both federal and state governments have "seriously impaired the constitutional rights of the workers," and characterized some of their differences including those of the United States supreme court as narrow, strained and class-biased interpretations.

The council announced its intention to investigate the justice used by the banking institutions and insurance companies of the country in handling the funds entrusted to their care for investment and safekeeping of the wage earners.

"It intends that the savings of the workers," it was stated, "shall no longer be used to deprive them of their constitutional and economic rights and opportunities."

"The executive council does not view the granting of corporate charters for the advancement of our financial, commercial and industrial interests as a governmental policy that should be discouraged," added the statement.

To the contrary, it is our firm conviction that much good has come to civilization by the approval of the co-operative principles fundamentally underlying the encouragement of corporate enterprise.

"Collective enterprise has, and does enable gigantic and marvelous undertakings which are inconceivable of accomplishment by individual effort and individual enterprise."

Indeed, the executive council views many of the attempts being made to prevent the further application of the principles of co-operation in our industrial life as distinctly harmful to the progressive advancement of our nation and civilization. What deeply concerns the wage earners and citizens of our land is the unfair, unjust and unwarrantable discrimination that is being made against the workers in denying to them the same rights and privileges enjoyed by those in control of the corporate wealth of the nation.

"Corporate industries today present the situation of where those corporate organizations of industry receive every possible protection and encouragement from the government and where the wage earners receive only discouragement and are met on every hand with active hostility on

the part of those entrusted with the sacred function of administering our affairs of government in an impartial and humane way. The organized wage earners assert that if preference is to be given to any element or factor in our social and industrial life, the labor, not capital—service, not wealth—man, not the dollar, should receive the higher consideration, encouragement and protection."

Men on March Have Nearly Returned to Their Homes

(By The Associated Press)
CHARLESTON, W. Va., Aug. 27.—State and federal authorities were a unit tonight in declaring that the march of miners from Marmet to Mingo county as a protest against Governor Morgan's martial law had come to an end, and hundreds of the men were back in their home towns.

Brigadier General H. H. Bandholtz, here to investigate conditions for the war department drove from Charleston to Racine over the line of march taken by the miners and expressed himself as being convinced that the "jig is up."

He addressed miners at Racine, who were waiting for a train to take them home, and after further investigation returned to Charleston to prepare his report for the Washington authorities.

Much confusion was occasioned by reports from Williamson Mingo county, and Welch, Md. Dowell county, that Sheriff DeChafin, of Logan county had sent out a hurried call for assistance, and that forces of the state police and deputies had been hurried to Logan by automobile expecting to arrive there late today.

Situation Quiet. As all information reaching government sources from Logan county was to the effect that the situation there was quiet this movement of reinforcements was not explained until it became known in Welch after Sheriff Hatfield and his men had departed for Logan, where the march had been broken up and that the men were on their way home.

The movement of the state police from Williamson was explained by the fact that fears were felt in some quarters that stragglers from the now disbanded "army" might remain in Boone county and in the presence of the force would be impeded there to help Sheriff Hill and his deputies to clear up the situation. This assumption was borne out when Captain J. R. Brokus and his troopers rode thru Logan on their way to the Boone county border.

The one point in the mining country which had been the source of much anxiety for officials because of its position along the Boone-Logan border was Blair. Reports have come on two successive nights that fighting was progressing between miner and Logan county authorities.

NOTIFICATION CAME TOO LATE

The commander of the American Legion Post at Bluffs recently received a communication from the government which stated that P. S. Cook should report in Jacksonville for a compensation examination. Unfortunately the summons arrived about a month too late as P. S. Cook passed away at one of the local hospitals a month ago and was given a military burial in East Cemetery.

The Bluffs Times makes several caustic remarks concerning the matter which are only too true:

"This is a rather illustration of the dilatory tactics practiced by the government in regard to the soldier boys. The government was loud in their praise of the soldiers as they marched away to fight for their country. There was nothing they would not promise them. Now its different, everything the government has given them is done grudgingly and hundreds have died since the war closed who might have been saved had they received proper treatment. It is a disgrace and a shame that such conditions exist, but they are here, and can be witnessed almost any time. Most of them would prefer to remain at home and receive the huge salaries that were given slackers, while they were on the front being shot at, at \$30 per month."

Yesterday Dr. A. M. King purchased the office building in West State street from his mother, Mrs. Anna King.

This property was occupied by Dr. King's father, the late W. H. H. King, for many years and Dr. King has been located in the building for the last fourteen years.

The property has been owned by the King family for nearly half a century, and is most desirable for professional offices.

Dr. King expects to make extensive improvements in the building in the near future which will make it even more desirable for tenants.

The national encampment is to be held at Indianapolis during the week beginning Sept. 25th.

The central passenger association has granted a fare of one cent a mile to all Grand Army comrades, their wives, widows or dependent members of their families and army nurses. All other organizations will have to pay fare and a half for round trip tickets. All passenger associations except the New England have granted the same rate.

Portland, Maine, and Springfield, Mass., each made fine offers for the national encampment but the New England passenger association would make no concession in rates and the trunk line association could only get reduced rates up to the New England line and full rates from that on so it was decided to go where the boys would get better treatment in rates and Indianapolis is cordial in her invitation.

DEDICATE AT ASBURY CHURCH
A dinner will be held at the Asbury church today at 12 o'clock as a fitting dedication of the new basement which has been added to the church. The dinner will be given by the church for the donors whose generosity made possible the building of the basement.

A delicious meal is being prepared for about one hundred and forty members. The speaker for the occasion will be Mr. H. H. Bancroft, who will deliver the address for the dedication. The church should be proud of the willing response of its members in the furnishing of funds for this project which has brought to such a successful completion.

DELEGATES TO CONVENTION GO ON EXCURSION

Miners Take River Trip Instead of Marching to Rosiclaire

(By The Associated Press)

ELIZABETHTOWN, Ill., Aug. 27.—Five hundred delegates to a downstate miners convention tonight enjoyed a river excursion trip and did not march to Rosiclaire, a mining village, where several persons were shot and wounded in a gun fight Wednesday night. A report this afternoon was made that the miners were marching to Rosiclaire to hold a night session of the convention and would wind up their day's program with a jubilee.

Sheriff Cox tonight stated that everything was in order and no recurrence of the shooting affair at Rosiclaire was expected. The convention session he said will continue until August 1.

Efforts to reach officers of the miners convention tonight were futile. Sheriff Cox said apparently all were aboard the river steamer and could not be communicated with before early morning. Business matters of the convention remain unknown. Constable Howard at Rosiclaire tonight said two men who were wounded in Wednesday night's gun fight were discharged from the hospital and that the others wounded were not considered in serious condition. He said that Rosiclaire had been quiet since the shooting.

FAIR ASSOCIATION DIRECTORS MEET

The board of directors of the Morgan County Fair association met Saturday for consideration of various matters relating to the coming fair. Among the matters considered was the holding of a combination public sale, and it was decided to have this sale on Friday, the day following the close of the fair. Harry Kimer is the secretary in charge of the sale, and only animals which have been exhibited at the fair will be disposed of.

The big tent which has been procured from the Peoria Tent & Awning Co., is already here and the other smaller tents are expected Friday, in charge of a man sent by the company. The work of erecting the pens for the various exhibits is already in progress.

BIG REVIEW IN HONOR OF LEGION

(By The Associated Press)

PARIS, Aug. 28.—Policemen, gendarmes and firemen of Paris to the number of 4,500 were reviewed this morning by Prefect of Police Leullier, the review being ordered in honor of the visiting members of the American Legion. The ceremony was held in the Place Notre Dame within the shadow of the famous cathedral.

It was the first occasion in the history of Paris that such a large number of the guardians of the peace in the French capital had been assembled in one body. Five Americans received the legion of honor decoration at an official luncheon given by Minister of Pension Maginot, representing the French government. Marshal Foch presented the insignia of commander of legion of honor to Franklin D'Olier, of Philadelphia, former national commander of the American Legion and former commander of the Paris post of the legion. Colonel Henry D. Lindsay, of Dallas, Texas, past national commander, and Colonel M. J. Foreman of Chicago, received from the marshal the insignia of officer of the legion of honor, while Delancy Kuntze was created a chevalier.

Major John G. Emery, national commander of the American Legion, in a speech at the banquet assured the French that "you need have no fear of any 'Rhine horror' or German propaganda in the United States as long as the American Legion lives. If a German propagandist attempts such, he will be thrown out."

JAPAN AND U. S. CAN NEGOTIATE

WASHINGTON, Aug. 27.—One result of the signature of the German-American peace treaty having been to confirm the American rights to equal participation with the other allied and associated powers in the disposition of the formerly German owned colonies and islands of the Pacific it has now become possible to conduct negotiations directly between the United States and Japan for the settlement of the disputed claims for cable control of Yap and other islands that it is desired to eliminate from the discussions of the coming conferences.

In anticipation of the ratification of the German-American treaty such negotiations have begun with prospects for successful conclusion, but dependent to some extent upon the approval of the arrangement effected between the United States and Japan by the other powers interested, Great Britain, France and Italy.

GUARD AGAINST ANY WALKOUT

CHICAGO, Aug. 27.—Railway union leaders kept watch tonight to guard against any unauthorized walkout of shopmen here which it was feared might develop in protest against the wage reduction decision of the railroad labor board. While B. M. Jewell, president and six other officials of the federated shop crafts rejected altogether the labor board's order cutting overtime pay they warned the men against quitting work.

That a strike vote taken by the shopmen several weeks ago in connection with the wage reduction effective June 30, was reported to have been strongly in favor of a walkout adds to the seriousness of the situation was said tonight by union officials.

COURT UPHOLDS EQUITY SHOP POLICY

New York, Aug. 27.—The equity shop policy of the Actors' Equity Association was upheld today as legal and not in violation of sound public policy by Judge Julian W. Mack, referee in the controversy between the association and the producing managers' association. Under the equity shop policy, members of the Equity association refused to play in the same theatrical companies with non-members.

Judge Mack held that the Equity Shop did not violate the basic agreement between managers and the actors' organization, reached at the conclusion of the actors' strike two years ago.

Remember the date, Sept. 3. The cyclone is due then.

YANKS and LEGIONAIRES

Forceful Facts Concerning the Interests of Former Soldiers, Sailors and Marines.

France has 1,500,000 cripples of the World War. No less than 17,000 American Indians were killed in France during the World War. The list of active destroyers of the United States navy totals 355—one for every day in the year.

In Canada, five million acres of farm land is now under cultivation by ex-service men of the Dominion.

Of the 1,000 commissions for second lieutenants available in the United States army, only 126 have made application.

More than 200 farms on government reclaimed lands in Washington will be open to entry by former service men in October.

A recent issue of the Congressional Record lists upwards of 17,000 names of men as draft evaders. The list covers 86 printed pages.

Some 13,354 tons of projectiles of war have thus far been collected by a special Belgian military service.

Approximately 400,000 prisoners of war have been restored to their homes by the League of Nations, with a few more than 100,000 yet to be repatriated.

Employers who discharge National Guardsmen because they left their positions in Boston, Mass., to attend the annual camp will be prosecuted.

In many States in the Union, provisions have been made for offering a cash bonus for widows and dependents of service men who have died in the World War. Membership of the Boy Scouts of America has now reached 528,119. This is said to be larger than the total membership of scouts in the rest of the world.

The Mexican Government is constructing an ornate repository for the bodies of Mexican war heroes. The monument and its environs will cost \$1,000,000.

Because pawn shops are displaying many medals and badges the Navy department recently sent to the House, in Washington a bill to punish anyone selling war decorations.

The body of an unidentified American soldier selected for burial in the Arlington National cemetery, on Armistice Day will be one of which there can be no possible chance for identification.

A monument was recently unveiled in the Province of Luxembourg, to the memory of 283 inhabitants killed by the Germans, in August, 1914, as vengeance for the resistance of French soldiers.

Only three States in the Union have failed to pass legislation authorizing aid to World War veterans in exemptions, bonuses or benefits of some kind. They are Alabama, Georgia and Mississippi.

A \$40,000,000 battleship requires a crew of approximately 1,200 officers and men with an annual pay of \$750,000. The yearly cost of upkeep is estimated at \$1,000,000 and the life of the ship is twenty-five years.

To meet changes in methods, policies, etc., found advisable as a result of the experiences gained during the World War, the War Department is busy revising various regulations governing the military establishments and its branches.

Every returned Canadian soldier received a bonus amounting to six months' pay from the date of his discharge, and a system of pensions has been provided to take care of the wounded, shell-shocked and mentally incompetent soldiers.

The new type of 'Sam Browne' belt, approved by General Pershing, for army officers has straps over each shoulder. Removable pistol slides are added, likewise a first aid pouch, canteen, double magazine pocket and sabre attachment.

Mission recently passed a bonus law for soldiers, sailors and marines, which provides a cash payment of \$10 a month, the maximum being \$250. None shall be entitled to a bonus unless honorably discharged and a bona fide resident of that state for 12 months prior to April 6, 1917.

Canadians who served during the World War are now receiving their Victory Medal. On the obverse side of the medal is an angel representing both peace and victory. On the reverse is inscribed: "The Great War for Civilization, 1914-1919." The ribbon is purple, blue, yellow and red, all blending one into the other.

Sergeant P. W. Jones of the United States Marine Corps, holds the world's record in shooting. He registered at the tournament of the United Service, recently held at the range at Wakefield, Mass., 132 consecutive hits, slow fire, with a regulation army rifle, at a distance of 300 yards. The previous world's mark was 115 per cent hits.

A wreath of fresh flowers was recently sent by the Returned Soldiers and Sailors League of Perth, Australia, to England, to be placed on the tomb of the Westminster Abbey. The wreath was frozen in a solid block of ice, and the flowers upon arrival were found as fresh as when they left Australia, the ice having preserved even their color.

Are you ready for the big cyclone? Keep your mind fixed on the date, Sept. 3.

Richard Oxley traveled from Dublin to the city yesterday.

FIVE MEET DEATH AT GRADE CROSSING

MACOMB, Ill., Aug. 27.—Five persons, three women and two men were instantly killed today when a Toledo, Peoria & Western passenger train struck their automobile on a crossing near LaHarpe, twenty miles from here.

The dead are: Mr. and Mrs. J. A. Miller of Bettendorf, Iowa; Mr. and Mrs. Frank Ege, and Mrs. William Elaine, of Albany, Ill.

The party had been to Keokuk, Iowa, and stopped in LaHarpe to visit relatives on their way home at the time of the accident.

BIRTHDAY PARTY AT HOME IN LITERBERRY

Mrs. Ethel Henderson of Litterberry gave a party Saturday night in honor of the 14th birthday of her daughter, Mabel Henderson. It was a surprise event and when the young lady returned home in the evening she was greatly astonished to find a group of boys and girls there.

The time was spent very happily with games and of course refreshments had their place in the evening's program. Miss Henderson received a number of handsome gifts.

The guests included Misses Ada Scribner, Eleanor Guy, Dorothy Ogle, Irene Ogle, Claudine Ratliff, Mildred Underbrink, Messrs. James and Russell Dunlap, Billy Dunlap, James Robert Beavers, Wiley Scribner, Byron Ogle, Landis Young and Eugene Young.

Watch for the cyclone that is coming to Jacksonville Sept. 3.

JONES FAMILY HELD REUNION

The annual gathering of the Jones family was held at the Durbin church last Thursday and was attended by nearly one hundred members of the family. They all enjoyed a banquet meal at noon after which they were entertained with a charming program.

Representatives of the family from almost all of the neighboring towns were present as well as some that came all the way from California to be present. The reunion next year will be held at Nichols park.

The following program was furnished:

Song—"What a Friend We Have in Jesus."
Prayer—Mrs. Sarah Kelly.
Recitation—Miss Lillian Challons.
Piano solo—Wayne Rolston.

HORNSBY GETS BACK IN BATTLING STRIDE

CHICAGO, Aug. 27.—Rogers Hornsby of St. Louis got back in his batting stride during the last week, according to averages released today and which include Wednesday's game. The Mount City favorite strengthened his position at the head of the National league hitters who have participated in 70 or more games, by boosting his mark ten points to 4.1. He also tied Dave Bancroft, of the Giants for the scoring honors. Each has registered 101 runs for his club. Hornsby has made 191 hits for a total of 395 bases. His hits include 29 doubles, 1 triples and 17 homers.

George Kelly, the hard hitting initial sack guardian of the Giants, discovered another home run hit and as a result, bunched out two homers, and brought his total for the season to 22.

Frank Frisch, of the Giants, who is burning the paths with his speed added three bases to his string and is showing the way to the base stealers with 42 thefts.

The veteran, George Cutshaw is the runner up to Hornsby for batting honors with an average of .350, while Ed Roush of Cincinnati is in third place with .348.

INDIES OPEN SERIES WITH BROWNS TODAY

Local Teams Will Play at South Side Park — Game Promises to be Hard Fought.

The Indians and Browns will open a series of games at South Side park this afternoon. The teams have been practicing hard for the opener and it promises to be a hard fought contest.

During the summer the Browns have been playing games out of town and in recent weeks have been showing some good baseball. Among their victims is the strong Bluffs team and they also have a victory to their credit over Bath.

Fans who journey to South Side park this afternoon will hardly recognize the Indians. Manager Smith has signed several new men and they will be in the lineup today. Among them are Dickson, Devlin and Zell. However, Zell will not be able to play today.

He was hit on the arm by Pitcher Dove at Auburn last Sunday and his arm is in bad shape. The doctor advising him to lay off for a couple of weeks. Burkley has been loaned by Smith to the Chapin team today and will play with them against Roadhouse.

The game this afternoon will be called at 2 o'clock. The teams will lineup as follows: Indians—Dickson ss, Wheeler 3b, Doyle rf, Clark e, Hamm cf, Christopher lf, DeFries 1b, Devlin 2b, Wright p. KNOX HAS TEN OF LAST YEAR'S TEAM

Prospects Bright for Good Year—Schedule Is Announced.

Galesburg, Aug. 27.—Return of ten of last year's team including three veterans, gives Knox promise of a great year in football. Coach Sam Barry and Captain Freeman Campbell will not be back this year.

Lyman Crabbe of New London, Iowa; Pete Welch of Moline, Illinois, and Walter Schafer are all veterans who are playing their last year on the team.

Others of last year's players who will be back are Lester Olin of Alexis, and Otis Morrison of Galesburg, who have each had two years with the team, and the following men who have played one year: Claude Ludwig, Moline; Kenneth Stuart, Galesburg; Russell Brown, Canton, and Philip Stearns, Galesburg.

The season will open Sept. 24 with a game at home. The schedule follows: Sept. 24—Hedding College at Galesburg.

Oct. 1—University of Iowa at Iowa City.

Oct. 8—Illinois Wesleyan at Bloomington.

Oct. 15—Millikin at Galesburg.

Oct. 22—Charleston at Galesburg.

Oct. 29—Beloit at Beloit.

Nov. 5—Washash at Crawfordville.

Nov. 11—Coe at Cedar Rapids.

Nov. 18—Lombard at Galesburg.

Nov. 24—Monmouth at Galesburg.

Three of the teams scheduled this year were met by Knox last year. Lombard won 24 to 6.

Material at Knox college this year will be augmented by the entrance of high school players from eight other cities. Those who have already enrolled at Knox are as follows: Ben Allison, Fairmount, Minn.; Paul Nelson, Lugerville, Wis.; George Gruhn, Columbus, Wis.; Russell Wise, Rock Falls, Ill.; Richard Gimble, Clarendon Van Norman and John Brewer, all of Peoria; Bruce Gebhardt, Sterling, Ill.; Gill, Decatur; C. Bird, Pontiac, Mich.; and W. Mahler, Madison, Wis.

What RAY Has Done to Battery Prices

RAY Battery prices have remained unchanged. Where other makers increased their prices when the demand for batteries was greater than the supply, RAY remained at the same figure. The motoring public recognized this fair and square business principle by giving RAY business when other makers felt a depression. RAY business has INCREASED consistently when other makers decreased.

The result has been that competitors have been forced to drop prices down to somewhere near the RAY price level. But regardless of where they put their prices they offer RAY no competition as far as construction is concerned because no other battery possesses the famous "Lavier Formula Plates."

The RAY is guaranteed unconditionally for two years—the broadcast battery guarantee ever offered.

Types Prices 6-Volt 11-Plate, \$29. 6-Volt 13-Plate, \$32. 12-Volt 7-Plate, \$35

ABC Rules
About Batteries

Adjustment and oiling make your bearings last longer—proper inflation and careful driving make your tires last longer—cleaning makes your spark plugs serve longer and better. It is worth remembering that there are rules just as simple for making your battery last longer and serve more faithfully.

Here are three rules in A B C form:

- 1—Put in water regularly and keep up the charge.
- 2—Come in every two weeks for battery service.
- 3—And when your present battery wears out, buy a Willard Threaded Rubber Battery—the only battery with Threaded Rubber Insulation between the plates.

There is only one battery good enough for us to back by our unqualified recommendation—that's the Willard Threaded Rubber Battery. Come in—and we'll show you some records it has made right here.

FOR CITY GROWTH

Kansas City Paper Tells How an Unsightly Brook was Turned Into a Boulevard—The Value of Hard Roads.

J. R. Harker has been making a brief stay at Excelsior Springs near Kansas City. He recently read with interest the following paragraphs in the Kansas City Star which have their local application. In a letter with the clipping sent to a Jacksonville friend, Dr. Harker says: "The enclosed clipping from the Kansas City Star makes me think again of the wonderful asset Jacksonville might have in its present 'unsightly gash' of a brook which might be made one of the most attractive drives in the city's boulevard system."

This clipping from the Star gives a hint of Jacksonville's possibilities. If we were connected by good roads with all the towns and villages within 50 or 60 miles of Jacksonville. Let us cheer up for a better day is coming rapidly. The good old city has more boosters now than ever before and the number is still increasing.

Here with are the paragraphs to which the reference is made:

Making a Liability an Asset.

Cherry Creek enters Denver from the southeast and flows thru the city five miles to its junction with the South Platte. Ordinarily it is a trifling stream about equivalent to Brush Creek in Kansas City. It used to be an unsightly gash in the topography of Denver. Then the city took it in hand, banked it with concrete, and built Speer boulevard beside it. Now it is responsible for one of the most attractive drives in the city's boulevard system.

"The incident is a striking illustration of the transformation of a civic liability into an asset. Kansas City has even greater opportunity to do the same thing in Brush Creek Valley to the Blue, and in the Blue Valley."

MADE BATTERY TEST.
A New York paper has an interesting report of a two days' test at the Electrical Test laboratory given under the auspices of the American Automobile Association representative and others as to automobile batteries. The test covered two days and of the five batteries in competition the Ray made the most remarkable showing.

The purpose was to show the ability of the plates and the active materials to stand up. According to the New York report, a copy of which was received by G. A. Neher the Ray was the only battery when taken apart which and states that seemed hardly to have been used.

FINE PROGRAMS GIVEN
AT WINCHESTER

Chautauqua Programs Saturday Were of Special Merit—Today is Final One of Assembly—Other Winchester News.

Winchester Aug. 27.—The farm bureau had charge of program at the chautauqua Saturday and the programs were excellent both afternoon and evening. In the afternoon H. Farris made a talk on "Co-operation of Farmers." This was followed by an address by Hon. T. Rainey, who also talked of problems relating to farm operation and management. The Barnes Ensemble furnished a delightful program of magic both afternoon and evening. In the evening Senator Kossinger made a popular lecture on farm topics. The audiences both afternoon and evening were very large.

Sunday the Bernardo Concert Co. will furnish the musical programs. This company includes a pianist, violinist, cellist and accompanist and their reputation for high class performances is an enviable one. The concert will be followed by a business men's lecture on "The Path of Greatest Profit" by Frank Mulholland.

In the evening the Bernardo Concert Co. will make a second appearance, followed by a lecture on "The Sacrifice Ship" by Paul Dietrich. This is a community booster lecture. At 6:30 o'clock people are expected to have their supper and Mr. Mulholland will make an informal talk about conditions in Russia and India.

But it is not an accident when you purchase at To-Ro-6-12 Titan 10-20 or I. H. C. 8-16. This denotes good sound business judgment.

Price Should Be Considered Only by Quality. Quality Is Figured by Service

A few dollars spent for the right machine is soon saved in time when at work; a few hours lost in overhauling and money spent for extra parts is lost and very expensive and soon makes the cheap machine high priced irrespective of how cheap it was bought.

When you purchase a To-Ro 6-12-I. H. C. 8-16 Titan 10-20 you obtain more value for Less Dollars than is possible in any other make.

THE CONDITION OF CORN.

The crop report for Illinois recently made public estimates the corn crop of the state at about 79 per cent. Because the corn prospect hereabouts is better than usual, a great many people have believed that the indications were for a very heavy crop all over the

state. The figures, however, do not bear this out, and in many parts of Illinois the corn crop prospect is not nearly so good as in this locality.

K. C. PICNIC WILL BE JOYOUS EVENT

Committee Making Preparations to Entertain Big Crowds Next Wednesday Afternoon and Evening.

Knights of Columbus have practically completed arrangements for the picnic to be given on the grounds of the Morgan County Tuberculosis sanatorium next Wednesday. The events of the day will continue thru the afternoon and evening and a large attendance is anticipated. There will be burgo, fried chicken and a great many other good things offered for sale. In addition, the band will furnish music.

In the evening there will be dancing and for the afternoon the program of athletic events promises great interest for the young people. The list of athletic events will include sack race, 2 legged race, 50 yard race for boys under 16 years, 50 yard dash for boys over 16 years, 100 yard free for all, 50 yard dash for girls, ladies' nail driving contest, obstacle race, watermelon eating contest, cracker eating contest and a horse shoe pitching contest.

FIRE DEPARTMENT SPENDS BUSY DAY

After having a comparatively quiet time the fire department was kept busy for a time Saturday. The first alarm was at the residence of J. L. Henry, 215 Webster avenue, where a garage was threatened.

At 4:45 o'clock Saturday afternoon the department was summoned to 468 South Main street. Three barns in the rear, two owned by the Railway and Light company and one by L. A. Barnhart were afire.

The fire started in one of the barns owned by the light company and soon communicated to the others and all three were burning when the department arrived. However, the flames were extinguished without any great damage, which is fully covered by insurance.

At 7:30 o'clock Saturday evening the department was summoned to 1237 Park Place. However, the call proved to be a false one as no one at that number knew anything about it.

RECEIVES LETTER FROM DR. RAWLINGS

Mrs. Harold Gaines Gets Letter of Congratulation From Head of State Health Department.

Mrs. Harold Gaines, whose daughter was one of the prize winners in the baby show at the state fair last week, received a letter from Dr. L. D. Rawlings Saturday congratulating her on the possession of such a fine baby.

The baby, Wilma Leonore, tied with a Peoria baby for first honors with a score of 99.5, which is a remarkable record. In addition to the honor, there is a prize of \$20, which will be deposited to the credit of the baby in whatever bank the parents may designate. Grandpa Grant Gaines is about the proudest man in town over the victory achieved by his granddaughter.

REST ROOM PROJECT IS TAKING FORM

Now it develops that the Morgan County Red Cross has the matter of a rest room in the court house under serious consideration. At a recent meeting of the board of directors a committee was appointed for the purpose of considering this project and seeking the co-operation of various organizations in the work. This committee includes Harry M. Capps, Charles T. Mackness and Dr. Carl E. Black.

The understanding is that this committee will discuss with the county commissioners, the Woman's club, the Chamber of Commerce and possibly other persons and organizations the feasibility of establishing a rest room in the court house. In fact, the suggestion is for a complete rest room in the basement of the court house at the southeast corner below the county clerk's office for the use of women, and a smaller room for men in the southwest corner of the building.

The purpose of seeking combined interest and support of the movement is so that attendants may be provided without large expenditure by any one organization. In nearly all other cities rest room facilities are now available for visitors, especially tourists, and the need here is actual. As mentioned many times before, the number of tourists is increasing continually and there is a genuine and definite demand for a rest room. It is likely that the movement will take on definite form at no distant date.

F. L. LEDFORD WAS PRIZE WINNER

F. L. Ledford has returned from Springfield where he had entries in the poultry show at the state fair. Mr. Ledford took three firsts and one second with four entries in the Partridge Wyandotte class. He said the show was the greatest ever held, there being 2,500 entries. There also was a fine exhibit of rabbits.

MISS CORA CHERRY TO WED NORTON WARREN

Engagement Announced at Luncheon Given by Mrs. Cherry Saturday Afternoon—Wedding to Take Place in Fall.

At a charming luncheon given Saturday by Mrs. John Cherry at her home on South Church street the engagement of her daughter, Miss Cora Cherry to Norton G. Warren of Mount Vernon, Illinois, was announced. The guest of honor at this delightful affair was Miss Arline Warren, of Mount Vernon, a sister of the groom to be.

There were ten guests at the luncheon and in the dining room a most attractive color scheme of pink and white was carried out by the use of dainty little place cards, rose almond cups and a profusion of pink roses. The announcement came as a complete surprise, few of the guests having any idea what the tiny little telegrams contained. The little yellow slips were carried by paper messenger boys stuck in the ice cream placed at each guest's plate and the surprise was genuine when the telegrams were found to bear the initials C. A. C. and N. G. W. and the word October.

The bride to be, the daughter of Mr. and Mrs. John Cherry, is one of Jacksonville's most attractive and popular young girls. She is a graduate of the Illinois Woman's college with the class of '21 and upon graduating from college was awarded a scholarship at the University of Illinois. Miss Cherry has been very active in the social, religious and educational circles of Jacksonville and her many friends here will regret that Jacksonville will no longer be her home.

Mr. Warren is the son of Mrs. Catherine E. Warren of Mount Vernon and is a prominent young business man of that city, holding the position of auditor in the Davidson Biscuit company. He is an engineer with a record of 12 months overseas service and every one who knows him finds Mr. Warren a man of splendid qualities.

The guests at yesterday's luncheon included several Jacksonville people as well as some friends of Miss Cherry's who have been her guests at a week end house party. Those present were Miss Arline Warren of Mt. Vernon, Miss Esther Purl of Carrollton, Miss Lenore Krieger of Edwardsville, Miss Marjorie Taylor of Ashland and Mrs. George Vasconcellos, Miss Louise Fletcher, Miss Jeanette Powell, Miss Isabel Woodman and Miss Jessie Vasconcellos all of this city.

The marriage which will be the culmination of this engagement will be one of the most important social events of the fall season in Jacksonville.

HOT WEATHER AND THE SCHOOLS

Editor Journal:—With reference to your suggestion that if hot weather continues pupils will be seeking a postponement of the opening of the city schools.

Why wait for pupils to petition? Do not the powers know? A half day session for the month of September would be a sensible order for the probable season in this latitude. Why not? This suggestion is from one once experienced as teacher and later mother of three pupils.

Of course you're going to the K. of C. picnic Aug. 31.

HOWITZER COMPANY IN FINE SHOWING

Local Men Said to Have Fine Chance for Winning First Honors in Regiment—Lieut. Vance of West Point Is Instructor.

Camp Lincoln, Ill., Aug. 27, 1921.

To The Journal: The Howitzer company, 4th Infantry Ill. N. G., of Jacksonville, under Capt. Wesley R. James, went into summer training camp at Camp Lincoln, Ill., on Aug. 18. This company is composed of Jacksonville boys or near vicinity and the people of Jacksonville will probably be interested in knowing how well or how poorly their company is representing them.

The old National Guard as such has ceased to exist. Recently, or since the World war, the National Guard has been entirely reorganized. It has been federalized and during these summer training camps every organization is under the tutelage or instruction of regular army officers. This reorganization has been done mainly for one reason. During the late war the officials at Washington were particularly impressed with the extreme good service which the National Guard rendered.

It was finally decided to reduce the customary "standing army" to a few thousands; federalize the national guard in order to insure attendance at drill, and strict discipline, and pay for it; and then give them at summer camps the best instruction possible. Thus the Howitzer company of Jacksonville has Lieut. J. R. Vance, U. S. A., of West Point as instructor and is obtaining instruction and discipline of the best kind. Summer camp has changed from a vacation or outing to one of truly regular army status.

The response and reactions of the various companies in the regiment are interesting to watch. And the manner of response is determining the different organizations' rating.

Jacksonville will be interested to know that the Howitzer company leaving home with a gang of unruffled, practically newly enlisted and disorganized men is now rated as a first class military body and looked upon as the best prospect in the regiment for first honors. It has been due wholly to the way the personnel has put their shoulders to the wheel. Beginning routine work at 5:30 a. m., no dinner until 1:30 p. m. and supper at 6:30 p. m. Nevertheless, there is never a grumble, never a word of complaint.

The reason for such late mess is because when shooting the howitzer and trench mortars, there must be no one on the range, consequently, the Howitzer company must wait until all are off. But while waiting they are not idle by any means, but hearing lectures or receiving pistol practice, or instruction of some kind.

The company has come to camp and has represented Jacksonville well. They on the other hand, have received practically no support from the city. One business man has been up to drill. However, perhaps the company was not known much. When it returns, Capt. James is hoping to be able to give a demonstration of the action of the Howitzer company and it would not only be interesting to the onlookers but encouragement for the company to have a large attendance. And as long as the company is at Camp Lincoln, there is a standing invitation for anyone to visit. This Sunday, Aug. 28th, there will be a regimental parade at retreat time, about 6:30 p. m.

With Morgan County Poets

Have you ever stopped to consider how much poetry today is written to order, or after a model?

That is why you seem to have heard it before somewhere. Faultless it may be, so far as rhyme and meter are concerned, but you are seldom tempted to learn it, or file it away in your scrap-books.

Again you will meet with lines charged with the divine current, yet sadly lacking in form. It is a rare poet—a poet, indeed—who can meet both requirements.

Nature is a never-failing fount of inspiration to the poet, and they who go to her school command resources of form and content as varied as the phenomena of Nature herself.

The following "nature" poem appears in a pamphlet entitled "Bird Songs"—a reprint from the Transactions (Vol. XII, 1919) of the Illinois State Academy of Science, before a session of which the essay was read by the author two years ago.

SPRING ECHO

Sometimes in August birds begin to sing
As though a second spring
Were come to bless the year.
For weeks perhaps we've heard but plaintive calls
And hungry fledgling's squalls
To tell us they were here.

Then suddenly some morning ripples out,
Amid the blue jay's shout,
The dear song sparrow's lay;
And straightway we forget midsummer's gone,
And nesting cares are done,
Remembering some cold day

Early in March when, wandering by the brook,
From out a brambly nook
Rang this same merry tune;
Prophetic of the days that were to be
When every bush and tree
Would shelter songsters soon.

And ere we have recovered from surprise,
We hear from out the skies,
Another sound of spring;
For though we do not see their azure coats,
We catch the warbled notes
Of bluebirds on the wing.

The pewees lend their voices to the choir,
And orioles, flashing fire,
Contribute their flute notes.
And soon, above the insect voices shrill,
The air is all a-trill
With music from bird throats.

And when October lays upon each field
Her glimmering, golden shield,
The meadow lark will sing
A reminiscent song—most sweet to hear
In the departing year—
Last echo of the spring.

—ANNE WAKELY JACKSON.

G. M. LEMON DIED SUDDENLY IN DAKOTA

Many Here Sorry to Know of Death of Manchester Man.

George Martin Lemon, second son of Albert and Lucy Lemon, was born Jan. 16, 1891, near Manchester, Illinois and died Aug. 29, 1921 at Hot Springs, South Dakota, aged thirty years, seven months and four days.

He grew up to young manhood in his father's home, attending the rural school, then taking a two year's course in the Manchester High school. At the age of seventeen, he was converted at the M. E. church during the revival held by Evangelist "Billy" Williams and united with the Baptist church.

On October 2, 1912 he was married to Miss Ida Fearneyhough. Two little girls came to gladden their home life, Pauline and Virginia. He spent most of his life in and near Manchester, engaged in farming, but last summer the family decided there were greater opportunities for a young man with courage and endurance in the rapidly developing West, so on Aug. 10, 1920 with his wife and babies started for Gelet, Wyoming, where he took up a claim of six hundred acres and settled down in their new home to bravely face the future with its difficulties and responsibilities. Little dreaming the end awaiting him.

After the work season at home was over he with his friend and neighbor, Mr. Harry Bushnell, joined the men working on the state highway in South Dakota, leaving their wives together in charge of the claims. George had not been home since June 28th so it was a great shock to the wife when the news came that he was badly burned as the result of an explosion caused by a short fuse. Before she reached his side a message came saying death had relieved his sufferings. She hastily made the preparation and with her neighbor, Mr. Bushnell, started home with the body. He was given every care at the Sister's hospital at Hot Springs and while conscious to the last, complained of very little pain. He was of a quiet, home loving disposition and his wife and children meant the most in life to him, their comfort and happiness being his first and last thought.

Beside his wife and children, Pauline, aged four years and Vir-

ginia, fifteen months, he leaves his father and mother, one brother, Harry, five sisters, Annie, wife of Carey Simmons, Jessie, wife of James Curtis, Cora, wife of Clarke Smith and Hattie and Florence at home to grieve over his untimely death. The entire community joins the sorrowing family and host of relatives in sympathy in this sad hour of their lives.

Mr. Lemon was a member of the Modern Woodman of America of Manchester lodge No. 889 of the Red Men, and also a member of Royal Neighbors No. 1745 of Manchester.

B. A. Johnson was down to the city on business from Liberty yesterday.

Are You Weak, Worn or Worried? Is Your Blood Thin and Watery

So that it makes you nervous, sleepless or easily fatigued? Don't wait until you collapse but commence to fortify your starving blood with iron today. How to do it.

If you are undergoing STRAIN, STRESS OR TROUBLE, don't forget that it is probably sapping the iron from your blood and that your RED BLOOD CORPUSCLES are likely DYING BY THE MILLIONS.

WHEN YOU FEEL THE FIRST WARNING SYMPTOMS—when you commence to lose your strength or vitality, don't sleep well at night, are highly nervous or irritable; get the "blues" easily; when your eyes begin to lose their lustre or brilliancy and the lids are pale inside (a most important symptom) then is the time you should act; and not wait until you go down in a state of complete nervous prostration or physical collapse.

A New York physician says that MORE THAN ONE-HALF THE POPULATION OF AMERICA PERISHES BEFORE MIDDLE AGE and that one of the chief contributory causes of this terrible waste of human life is the devastating weakness brought on by lack of iron in the blood.

THERE ARE 30,000,000,000,000 RED BLOOD CORPUSCLES IN YOUR BLOOD AND EACH ONE MUST HAVE IRON.

When your blood is starving for iron no mere tonic or stimulants can put you right. You must have iron.

To get iron you must eat the husks of grains and the peels and skins of fruits and vegetables as our forefathers did or take a little organic iron from time to time and eat much such iron-containing foods as spinach and apples. But be sure the iron you take is organic iron and not metallic or mineral iron which people usually take. Metallic iron is just as it comes from the action of strong acids on small pieces of iron and is therefore an entirely different thing from organic iron. Organic iron is like the iron in spinach, lentils and apples. It may be had from your druggist under the name of Nuxated Iron.

Nuxated Iron represents organic iron in such a highly condensed form that it is easily absorbed by the body. It is a highly condensed form of iron that is easily absorbed by the body. It is a highly condensed form of iron that is easily absorbed by the body.

AUTO INSURANCE CO.

SHOWS RAPID GROWTH

Local Concern Has Large and Aggressive Field Force and is Managed by Competent Underwriters.

A visit to the offices of the United States Underwriters Company located at 213 1-2 East State street reveals a young, strong and growing institution which is well managed and will no doubt soon become one of the largest automobile insurance concerns operating in the middle west. This company was incorporated last January—with an authorized capital of \$100,000.00, the incorporators being R. V. Rowe, J. V. Kennedy and O. H. Wilder, who are now the president, vice president and secretary in the order named. Business is conducted on the level premium basis and proper reserves are maintained in accordance with the strict insurance laws of the state.

A field force of over two hundred agents is sending in applications daily from various parts of Illinois and the company is especially well patronized by the people of Jacksonville and Morgan county. The management may well feel proud of this testimony of confidence placed in them by those who know them best. Agencies at Decatur, Galesburg, Champaign, Lincoln and various other desirable centers follow closely in volume of business transacted. In Morgan county, which indicates that the company meets competition away from home favorably. A large number of claimants have been cared for and all have unhesitatingly endorsed the fair treatment accorded them.

The stability of the company is further evidence by the fact that it has unwritten the business of a number of other insurance concerns which had been operating within the state. This was necessitated by recent legislation which requires companies to maintain proper amounts of surplus and reserves and the fact that the United States Underwriters company is financially able to assume the business of these concerns speaks well for the forethought and underwriting ability of the management.

Concerns of this kind mean much to a city in various ways, and especially do they direct the attention of great numbers of people over various parts of the coun-

try to the city in which their home office is located. Their representatives pay frequent visits to the home office, by which the city is benefited materially, and at the same time becomes better known and advertised. The men in charge of the Underwriters Company are constant boosters for Jacksonville, which is attested by the fact that the president of the

company is also president of the Chamber of Commerce.

The automobile industry has grown by leaps and bounds and is now the third largest industry in the United States. With this growth in number of cars the hazards incurred by ownership and operation have increased until insurance against loss from the various hazards has become as staple as any other branch of in-

surance, but the field is yet new enough to admit the local company becoming one of the largest concerns assuming this class of risk.

Mr. and Mrs. H. O. McLaughlin started yesterday on an extensive auto trip to Springfield, Decatur and Sullivan, where they will visit relatives and friends. They are widely known in all of these cities.

CASE IN GEORGIA IS REMARKABLE

Really Sounds Incredible But Well Known Merchant Testifies to Facts.

Writing from Maxeys, Ga., A. J. Gillen, proprietor of a large department store at that place, says: "I have a customer here who was in bed for three years and did not go to a meal at any time. She had five physicians and they gave her up. One bottle of Tanlac got her up, on the second bottle she commenced keeping house and on the third she did all the cooking and housework for a family of eight."

This sounds really incredible, but it comes unsolicited from a highly creditable source and is copied verbatim from the letter. Tanlac is sold by leading druggists everywhere.—Adv.

Winter Hog Market

A survey of the summer hog market is highly gratifying to producers, especially when cost of production is considered.

Assuming that census figures are approximately correct pork production in the United States threatens to fall behind consumption requirements, especially if the inevitable revival of commercial and industrial activity is not long deferred and that European requirements will show material increase as credits improve will not be disputed. The swine population of Europe was seriously decimated during the war and despite the fecundity of the porcine species repopulation will not be accomplished for at least half a decade.

All the logic of the situation and the prospect suggests a broad market for hogs and profit for the producer, in fact, swine will be essential to economical marketing of the accumulation of old corn and the new crop.

Winter prices will depend largely on the revival of in-

Aug. 13	14.80	1.60	Aug. 13	9.75	58 1/2 c

At this juncture the question of winter prices naturally concerns producers. Supply at the principal markets for 1921 to date has fallen slightly below that of the corresponding period of 1920, but added weight will more than atone for deficiency in numbers and there is every reason to assume that the new crop will be about equal in volume to that just marketed. So many factors enter into the equation that numbers are, in a measure, of secondary importance, or subordinate to consumption, which must be considered from two angles, foreign and domestic. It is axiomatic that the value of that portion of production finding the European outlet is largely responsible for what the whole realizes and on this account the present wide export outlet should be reassuring.

Before the European war Germany was the principal foreign buyer of lard. Recently that market has developed surprisingly, coincident to establishment of credits with American banks. In June, 1920, Germany bought but \$145,528 pounds of American lard; this June its purchase aggregated 29,369,482 pounds. During the 12 months ending with June, 1919, Germany bought but 9,578,748 pounds of lard on this market last year its purchase was increased to 49,732,858 pounds, and this year it reached 231,527,922 pounds. Germany has also resumed buying American pork standing next to Great Britain in the matter of bacon with \$1,394,461 pounds during the fiscal year just closed. Of the recent large volume of exports to Europe Germany has taken a considerable percentage warranting expectancy that with reinstatement of credit incidental to reparations payments its purchases will increase rather than diminish.

Apprehension that vegetable oils would displace lard to a large extent after the war proves to have been ill-founded, as, during the fiscal year ending with June, 1921, lard exports aggregated 746,157,350 pounds against 587,224,549 the previous year. Belgium, France, Italy and Great Britain are taking substantial quantities of American lard and doubtless will as no other available supply source exists.

Another gratifying phase of this trade is that while European demand for bacon, hams and other cured product shows decided contraction, stocks of these cuts have neither increased nor attained burdensome volume testifying to an increasing and adequate domestic consumptive demand. During the fiscal year ending June 30, exports of bacon dropped to 489,298,109 pounds compared with 803,666,861 pounds, the previous year, and 1,238,247,321 pounds two years ago, but domestic consumption which was restricted both by cost and food administration regulations during the war has "come back" emphatically. In the case of hams exports were cut out from 367,246,022 pounds two years ago to 172,911,676 during the fiscal year just closed and yet ham trade has been active, preventing anything like a burdensome accumulation.

During and subsequent to the war there has been a tendency by commercial hog production to concentrate, due to failure of corn crops in some localities, the fact that corn and hogs were out of line as to price and, west of the Missouri river to Government restriction of the rise of wheat in pork making. This is indicated by heavy shipments of hogs from Kansas, Nebraska and South Dakota westward this year. The trend of hog production is distinctly northward, while in the Southwest it is declining, whereas a decade ago, prediction was confidently made that the industry would expand in such states as Kansas, Oklahoma and Texas. According to the 1920 census figures hogs are following corn northward the principal increases in swine population during the past ten years having been in Minnesota and the two Dakotas, which show a combined gain for that period of 1,800,000 while Kansas lost 1,266,955, Missouri

"Big City" Prices

We have known always that prices charged in this city for made-to-measure suits and overcoats, taking the identical cloth into consideration, were much less than those charged in other cities. But, it has been difficult to convince many persons of this fact.

Recently several men have called at our store and talked with us about suits. They knew woollens so they could not be fooled. They got our prices and found for a fact that we are from \$20. to \$50. under "Big City" prices for the same garments.

Why then buy away from home?

Our new goods for fall and winter suits and overcoats are in—Now.

All we ask of the men of this community who like and wear good clothes is to call and see the new fabrics, get our prices and let us show them just how and why Jacksonville prices are lower. No obligation is entailed. We gladly welcome the opportunity.

Why Grind
Cylinders?

No matter what other conditions may be, after a gas engine has been run a few thousand miles its cylinders are worn out of round; they leak oil and gasoline if this condition is not corrected.

Grinding is the only recognized mechanical means of lining up the cylinder walls to an accuracy of one thousandth of an inch.

The cost of grinding averages one-third the price of a new block. Therefore regrounding is an economical as well as practical thing to do.

Regrinding is not, however, a "cure-all" for all gas engine ills. In order to reach perfection of operation it is necessary to work over all worn parts which vibrate in cost with the degree of wear. This wear we are constantly urging the public to keep down to a minimum by using a clean, high grade oil in the crank case at all times.

We handle and recommend the use of MOBILOILS—"the oil that lubricates most."

FOR DANCE MUSIC

There's No Equal
to the

Gulbransen

Real music—personally
played music—new music or
old—always on tap for dancing,
if you have a Gulbransen
Player-Piano. Fast or
slow, loud or soft, accented
as desired, repeated or
changed.

Anyone can play the Gul-
bransen without effort. Take
your turn and chat while you
play. It gives everyone the
off' wished for excuse to rest.
And playing the Gulbransen
is really delightfully restful.

On other occasions, when
better music invites you to
play with feeling and intelli-
gence, the Gulbransen invari-
ably brings compliments to
the musician. It is the one
player-piano which has been
developed to assist true mus-
ical interpretation.

Got Over
That Little
Attack of
Pessimism?

--we have!

We'll admit that during the
hot weeks just passed some
things did look a bit dubious
but that's all over now. It's
going to take a lot more
than "talk" to stampede us
into the belief that "every-
thing is all wrong." It
isn't. Everything is work-
ing out all right, and we'll
have good times aplenty if
everybody will just get his
shoulder to the wheel and
push, and talk and act 'em.
The world has been full of

time to get over it—a little
work and a little patience.
